Business and Professional Women

What is Keys to Achievement?

...it's a personal and professional development program that challenges members to develop key business and career skills.

It enhances member's knowledge and commitment to BPW.

Business and Professional Women

*It's about **recognition***

*It's a journey for members to discover what BPW is about and apart from learning more about yourself as a leader, members also receive a **certificate** of completion and a **pin**.*

Business and Professional Women

Business and Professional Women

BPW founder, Lena Madison Phillips, challenged us
75 years ago to *build a future together and see
what we can create.*

Keys to Achievement is about learning and leading
together in an encouraging environment to see
what we can create.

Business and Professional Women

Keys to Achievement is an opportunity waiting for you to seize it with both hands to learn more about yourself as a leader and team player, and contribute to this great international organisation.
